

40% Energy Savings Guarantee

Sunrise Windows guarantees a 40% savings on the energy necessary to heat and cool your home during the first year after installation, when you replace all of the windows and patio doors in your home with Restorations Windows with Ultra-U^{VSS}, UltraKr90, or SunSmart Energy Savings Glass Systems. In the event that less than all of the windows are replaced, this guarantee will be prorated to the actual percentage of the windows replaced.

If you do not have at least 40% savings on the energy necessary to heat and cool your home during the first year after installation, your Certified Restorations Professional Contractor will refund the difference, up to a maximum of \$500.00. To make a claim for a refund, contact Sunrise Windows for an Energy Savings Guarantee Refund Application.
